### Front-end developer

Transforming Ideas into Seamless React JS Solutions: Let's Build Something Extraordinary Together!

## Education

### About-Me

Since January 2022 . Morocco

Hello! I'm Zakaria Rahali, a self-taught React JS developer with a background in electricity. While my education may not be traditional, my passion for development sparked a thrilling journey. Through relentless dedication, I've honed my skills and built an impressive portfolio of over 8 projects (I have several personal projects underway, and one of them includes freelancing). Ready to embrace new challenges, I'm eager to contribute to the development community. As a self-learner, I stay abreast of the latest technologies and trends, always seeking opportunities for growth. Thank you for visiting my portfolio website, and please feel free to reach out if you have any questions or if you'd like to collaborate.

### React - The Complete Guide (incl Hooks, React Router, Redux)

From March 2021 to September 2021 [udemy](#) Morocco

### Diploma of Technician in Industrial Maintenance Electricity

From June 2020 to September 2022

[Office of Vocational Training and Employment Promotion](#) mohammedia

### Electro-mechanical Qualification Diploma

From June 2018 to September 2020

[Office of Vocational Training and Employment Promotion](#) mohammedia

## Work experience

### Front-end Developer

Since July 2022 [E-Commerce Web site](#) moahemmedia

I designed and built a full ecommerce website from a Figma design to React JS, implementing features such as product listings, shopping cart functionality, and confirmation details. Additionally, I integrated Billing Details to confirm user information.

## Skills

Language : html / css / javascript

Framework : Wordpress / Shopify / Bootstrap / Material UI / Semantic UI

Design UI/UX : Photoshop / illustrator / Xd / Figma

Storage : firebase

Libraries : API React JS / Redux / React Hook Form / Styled Components /Axios
